

SUPPORTED HOUSING AND REGULATION

Helping you to understand and manage the increasingly complex regulatory environment for supported housing

We are a specialist consultancy dedicated to helping organisations get the most out of their business. We offer a well-established team with a depth of experience and the practical skills to help you to:

- Fully understand all the different legislative and regulatory requirements impacting on supported housing
- Adopt processes and reporting to give you assurance you are compliant
- Review whether you are compliant
- Achieve more than just compliance
- Meet new building safety requirements
- Become a registered provider
- Involve your customers and colleagues in improving your approach

We can support you using our well established and market-leading approach to reviews of governance and compliance, now updated and targeted towards supported housing.

REGULATORY CHANGE

We operate in a rapidly changing regulatory environment. Here's just a few of the current issues that we can help with:
